Administration
Supports major functions of the Department such as department management, health statistics and reporting, personnel, accounts payable, purchasing, payroll processing, expense reimbursement claims.

Black Infant Health Program (BIH)
Provides support, education, and referrals for high-risk African-American families and infants up to one year of age; empowerment-focused group support services and case management.

Birth Certificates and Other Vital Records
Registers births, deaths and fetal deaths occurring in the county. Provides certified paper copies of birth certificates and other vital records (e.g., death certificates).

California Children's Services (CCS)
Statewide program that coordinates and pays for medical care and therapy services for eligible clients under 21 years of age.

Child Health and Disability Prevention Program (CHDP)
Provides oversight to CHDP medical providers and community clinics as well as connects low-income children and children in foster care to community resources in relation to preventative health care, treatment services, and diagnostic referrals for ages 0 - 21.

Child Passenger Safety Program
Provides one-on-one car seat installation assistance to parents and caregivers by appointment at PHS and at community check-up events, conducts car seat education classes in the community.

Childhood Lead Poisoning Prevention Program (CLPPP)
Provides education and resources for the community in order to raise awareness of the dangers of lead poisoning. Home visitation and inspections are also available for children found to be severely lead-poisoned.

Chronic Disease and Injury Prevention Programs
Works with community partners across the County on strategies to reduce the risks associated with diabetes, hypertension, and other chronic conditions (e.g., healthier diets, more physical activity, monitoring blood pressure, appropriate medications). Also, works with traditional and non-traditional partners on the prevention of injuries (e.g., as a result of traffic, pedestrian, and bike crashes, senior falls, drowning, suffocation, poisoning, etc.)

Communicable Disease Control Program
Conducts case investigation of reportable communicable diseases, outbreak management, contact identification, patient and community education, and consultation to physicians, infectious disease practitioners, nursing facilities, schools, and day care programs.

Emerging Diseases & Emergency Preparedness Program (EDEP)
Provides education and training to improve public health emergency readiness for individuals, families, and community-at-large.

Epidemiology
Provides surveillance and monitoring of health data as well as supporting programs’ needs for health-related data (e.g., social determinants of health); shares health information with the community through data reports and requests.

Fetal Infant Mortality Review Program (FIMR)
Member of Countywide multi-disciplinary team that reviews fetal and infant deaths to identify, develop, and implement recommendations that will improve community resources and health service delivery systems for women and children. The goal is to reduce the overall number of deaths as well as the disparity of fetal and infant deaths among African Americans.
In Home Supportive Services (for Elderly, Blind and Disabled)
Nurses assess homes and provide referrals and recommendations to families. (209) 468-2202

Laboratory
California State and Federally certified facility that provides high-complexity testing services for San Joaquin as well as a number of neighboring Counties. (209) 468-3460

Local Oral Health Program
In partnership with SJ TEETH, provides coordination of oral health activities to reduce the burden or oral disease among vulnerable and underserved populations throughout the County. (209) 468-8620

Maternal, Child, and Adolescent Health Program (MCAH)
Set of integrated programs designed to improve the health of California’s women of reproductive age, infants, children and adolescents, and their families. (209) 468-3004

Medical Therapy Program
Provides Physical Therapy and Occupational Therapy for children with physical disabilities up to age 21 years with a qualifying medically eligible condition. (209) 943-6361

Nurse Home Visiting Program
Conducts home visits for high-risk families with infants; nurses conduct developmental assessments, provide parent education, and make care referrals. (209) 468-3004

Nutrition Education and Obesity Prevention Program (NEOP)
Conducts education, outreach, as well as policy, systems, and environmental changes to promote increased access to and consumption of healthy foods and beverages, physical activity, and food security with the goal of preventing obesity and related chronic diseases. (209) 468-3842

Public Information and Communication (Media Inquiries)
Develops and coordinates communication and outreach strategies from PHS to the community (e.g., educational materials for programs, social media activities) as well as media relations. (209) 468-3859

STDs/HIV/AIDS Programs
Coordinates STD and HIV/AIDS related services. Provides counseling as well as education and prevention services that include street-based outreach and activities at schools and correctional facilities; case management to assist persons living with HIV/AIDS. (209) 468-3820

STOPP Smoking Prevention Program
Works in partnership with the Smoking & Tobacco Outreach and Prevention Coalition to promote a tobacco-free county. (209) 468-8211

STOPP Helpline* (local number)
Makes referrals to community programs to help stop smoking. (209) 468-2415

Sudden Infant Death Syndrome Program (SIDS)
Provides supportive services, referrals, and education for families experiencing the death of an infant due to SIDS. (209) 468-3004

Tuberculosis (TB) Control Program
Provides support and treatment for clients with active TB, as well as seeking out others in contact with that person to assess if they have been infected and need treatment, referral, and monitoring. (209) 468-3828

WIC Program (Supplemental nutrition program for women, infants, and children)
Helps families by providing nutrition education and breastfeeding support, issuing checks for healthy supplemental foods, and making referrals to healthcare and other community services. (209) 468-3280

Quality Improvement (QI) Program
Guides QI activities within PHS. Applies the principles of continuous QI to enhance the quality of PHS services to the community as well as internal day-to-day operations. QI efforts rely on teamwork to solve problems together. (209) 468-2183
